

PROFILE

An experienced designer with long career in surface design and entrepreneurship. Always prioritizing the user while seeking color balance and engaging intersections of design elements. Accustomed to working collaboratively, taking a leading role while being empathetic.

As a Designer in my own company, I have experience in collaborations and retail, including e-commerce. I have had my products sold at NK, Svenssons and Cervera, just to name a few of my retailers.

My experiences combined with new knowledge in the field, I think and hope that you will be satisfied with what I can contribute.
